Notes to the Condensed Consolidated Financial Statements
Six month period ended June 30, 2018

1. NATURE AND CONTINUANCE OF OPERATIONS

Triumph Gold Corp. (the “Company”) was incorporated under the Alberta Business Corporations Act on January 13, 2006 and was extra- provincially registered in British Columbia and the Yukon Territory. The Company is listed on the TSX Venture Exchange (“TSXV”), having the symbol “TIG”. The Company’s principal business activity is the exploration for mineral resources, primarily in the Yukon Territory, Canada.

The Company’s corporate office and principal place of business is Suite 1100, 1111 Melville Street, Vancouver, British Columbia, Canada.

These interim consolidated financial statements have been prepared on a going concern basis which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. The Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. External financing, predominantly by the issuance of equity to the public, will be sought to finance the operations of the Company. Although the Company has a history of raising money, there is no guarantee of this in the future. As a result, there always exists uncertainty about the Company’s ability to continue as a going concern. These consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). Therefore, these financial statements comply with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”.

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2017.

The financial statements were authorized for issue on August 27, 2018 by the directors of the Company.

TRIUMPH GOLD CORP.
Notes to the Condensed Consolidated Financial Statements
Six month period ended June 30, 2018
(Unaudited – Prepared by management)
(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

Principles of consolidation

These consolidated financial statements include the accounts of the Company and the wholly-owned subsidiaries, Bushmaster Exploration Services (2007) Ltd., Northern Freegold (USA) Inc. and Northern Freegold (USA) LLLP. All significant intercompany transactions and balances have been eliminated upon consolidation. The financial statements of the subsidiaries are prepared using consistent accounting policies and reporting dates of the Company. The functional currency for the Company and its subsidiaries is the Canadian dollar.

Financial Instruments

On January 1, 2018, the Company adopted IFRS 9, Financial Instruments, which sets out the accounting standards for the classification and measurement of financial instruments. IFRS 9 became effective for annual periods beginning on or after January 1, 2018, and replaces IAS 39, Financial Instruments: Recognition and Measurement. The new standard provides a model for the classification and measurement of financial instruments, a single forward-looking “expected loss” impairment model, and a reformed approach for hedge accounting. As most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward into IFRS 9, the Company’s accounting policy with respect to financial liabilities is unchanged. The Company has determined that the adoption of this standard has resulted in no material impact to its consolidated financial statements.

New accounting standards issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning on or after April 1, 2018 or later periods. The following new standards, amendments and interpretations that have not been early adopted in these consolidated financial statements, are not expected to have a material effect on the Company’s future results and financial position:

IFRS 16 “Leases” is to be effective for fiscal periods beginning on or after January 1, 2019.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company’s financial statements.

5. SHARE CAPITAL

Authorized:

Unlimited common shares with no par value

Unlimited preferred shares the series rights and restrictions to be determined by the Board of Directors on issuance.

Issued:

For the six month period ended June 30, 2018

During the six month period ended June 30, 2018, 1,734,000 warrants were exercised for total proceeds of \$164,400.

For the year ended December 31, 2017

On March 2, 2017, the Company completed a private placement financing of 11,880,000 flow-through shares at a price of \$0.528 per share for gross proceeds of \$6,272,640. On issuance, the Company bifurcated the flow-through shares into i) a flow-through share premium of \$332,640 that investors paid for the flow-through feature, which is recognized as a liability and; ii) share capital of \$5,940,000. To December 31, 2017, the Company expended and renounced \$3,528,918 in eligible exploration expenditures and, accordingly, the flow-through liability was reduced to \$145,500, recognizing a flow-through share premium reversal of \$187,140. Once the Company has incurred and renounced the remaining eligible exploration expenditures, the flow-through liability will be reduced accordingly. The Company incurred share issue costs of \$43,357. During the period ended June 30, 2018, the Company expended and renounced \$Nil in exploration expenditures related to funds received from this financing.

During the year ended December 31, 2017, 3,139,700 warrants were exercised for total proceeds of \$293,070.

8. SEGMENTED INFORMATION

The Company operates in one operating segment, that being exploration of mineral properties. All of the Company's assets are located in Canada.

9. CAPITAL MANAGEMENT

The Company includes cash and cash equivalents and equity, comprising of issued common shares, reserve and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

9. CAPITAL MANAGEMENT (continued)

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended June 30, 2018. The Company is not subject to externally imposed capital requirements.

10. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to a variety of financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The types of risk exposure and the way in which such exposures are managed are as follows:

Credit Risk - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalents with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper. The Company's maximum exposure to credit risk is the carrying amount of cash and cash equivalents on the consolidated statements of financial position.

Liquidity Risk – The Company's cash and cash equivalents are invested in business accounts with high-credit quality financial institutions and which is available on demand for the Company's programs. Future operations or exploration programs will require additional financing primarily through equity markets.

Market Risk – Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices.

Interest rate risk – In respect to the Company's financial assets, the interest rate risk mainly arises from the interest rate impact on cash and cash equivalents and term deposits. Every 1% fluctuation in interest rates up or down would have an insignificant impact on profit or loss.

Foreign currency risk - The Company is exposed to foreign currency risk to the extent that certain monetary financial instruments and other assets are denominated in United States dollars. The Company has not entered into any foreign currency contracts to mitigate this risk and has no financial instruments held in United States funds. Therefore, foreign currency risk is minimized.

10. FINANCIAL INSTRUMENTS (continued)

Commodity price risk – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand. Price risk to which the Company is exposed include its investment in equities which is comprised of shares held in Dawson, which are designated as available-for-sale and listed on the TSXV. A \$0.01 change in the quoted share price would change the fair value of the investments by approximately \$1,500. The change would be recorded in accumulated other comprehensive income (loss).

Fair Value - The Company has various financial instruments comprised of cash and cash equivalents, trade and other receivables, investments in equities and trade and other payables.

For disclosure purposes, all financial instruments measured at fair value are categorized into one of three hierarchy levels, described below. Each level is based on the transparency of the inputs used to measure the fair values of assets and liabilities:

Level 1 – Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 – Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3 – Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.
