**1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN**

Triumph Gold Corp. was continued under the British Columbia Business Corporations Act on December 19, 2011 and is extra-provincially registered in the Yukon Territory. The Company is listed on the TSX Venture Exchange ("TSXV"), having the symbol "TIG". The Company's principal business activity is the exploration for mineral resources, primarily in the Yukon Territory, Canada.

The Company's corporate office and principal place of business is Suite 1100, 1111 Melville Street, Vancouver, British Columbia, Canada, V6E 3V6.

The consolidated financial statements have been prepared on a going concern basis which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2025, the Company had current liabilities in excess of current assets of \$186,781 and an accumulated deficit of \$84,028,217. The Company's ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. External financing, predominantly by the issuance of equity to the public, will be sought to finance the operations of the Company. Although the Company has a history of raising money, there is no guarantee of this in the future.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, tariffs and national and international circumstances. Recent geopolitical events and potential economic global challenges such as the risk of the higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business. The impact on the Company is not currently determinable but management continues to monitor the situation.

There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about on its business, results of operations, financial position and cash flows in the future. As a result, there always exists uncertainty that causes significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

**2. BASIS OF PREPARATION**

***Statement of compliance to International Financial Reporting Standards***

These condensed consolidated interim financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). Therefore, these financial statements comply with International Accounting Standard ("IAS") 34 "Interim Financial Reporting".

The financial statements were authorized for issue on August 28, 2025 by the directors of the Company.

**Six-month period ended June 30, 2025**  
**(Unaudited – Prepared by management)**  
**(Expressed in Canadian dollars)**

**2. BASIS OF PREPARATION (continued)**

***Principles of consolidation***

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Bushmaster Exploration Services (2007) Ltd. All significant intercompany transactions and balances have been eliminated upon consolidation. The financial statements of the subsidiary are prepared using consistent accounting policies and reporting dates of the Company. The functional currency for the Company and its subsidiary is the Canadian dollar.

***New or revised accounting standards not yet adopted***

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements. This standard aims to improve the consistency and clarity of financial statement presentation and disclosures by providing updated guidance on the structure and content of financial statements. Key changes include enhanced requirements for the presentation of financial performance, financial position, and cash flows, as well as additional disclosures to improve transparency and comparability. In addition, IFRS 18 requires entities to classify income and expenses into five categories, three of which are new – i.e. operating, investing and financing – and the income tax and discontinued operation categories. The new standard sets out detailed requirements for classifying income and expenses into each category. These amendments are effective for annual periods beginning on or after January 1, 2027. The Company is currently assessing the impact that the adoption of IFRS 18 will have on its consolidated financial statements.

Other new or revised accounting standards not yet adopted or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

**4. EXPLORATION AND EVALUATION ASSETS AND EXPENDITURES**

Exploration and evaluation assets and related expenditures comprise:

**Freegold Mountain, Canada**

To June 30, 2025, the Company has recorded a \$60,000 (December 31, 2024 - \$60,000) provision for reclamation activities related to the Freegold Mountain Project. The timing of the reclamation activities cannot be estimated at this time, and will be performed upon the completion of the development of the project.

The Freegold Mountain Project is comprised of the following exploration properties:

(i) Tinta Hill Property, Yukon

The Company holds a 100% interest in the Tinta Hill Property subject to an annual advanced royalty payment of \$20,000 and a 3% Net Smelter Return ("NSR"). The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%. As at June 30, 2025, the total advanced royalty payment made was \$180,000 (December 31, 2024 – \$160,000).

(ii) Freegold Property, Yukon

The Company holds a 100% interest in the Freegold Property subject to an annual advanced royalty payment of \$ 10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%. As at June 30, 2025, the total advanced royalty payment made was \$90,000 (December 31, 2024 – \$80,000).

(iii) Goldstar Property, Yukon

The Company holds a 100% interest in the Goldstar Property subject to an advance payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after the commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$500,000 for the first 1% and \$1,000,000 for the second 1%. As at June 30, 2025, the total advanced royalty payment made was \$90,000 (December 31, 2024 – \$80,000).

(iv) Golden Revenue Property, Yukon

The Company holds a 100% interest in the Golden Revenue Property subject to a 1% NSR in favour of ATAC Resources Ltd on that portion of the property which is not subject to an underlying royalty. There is a 2% underlying NSR on a portion of the property. A total of 75% of the underlying NSR (1.5% NSR) may be purchased at any time for \$600,000. On June 13, 2018, the Company acquired the underlying NSR for a purchase price of \$100,000, thereby conveying the exclusive right to be paid all future rights associated from the NSR to the Company.

**4. EXPLORATION AND EVALUATION ASSETS AND EXPENDITURES (continued)**

**Big Creek, Canada**

On February 3, 2021, and as closed on March 1, 2021, the Company entered into a purchase and sale agreement to acquire certain claims, subject to 1.5% NSR, comprising the Big Creek copper-gold Property located in the Whitehorse Mining District of Yukon, Canada. As consideration, the Company issued 125,000 common shares at a fair value of \$225,000. During the period ended June 30, 2025, the Company paid \$Nil (December 31, 2024 - \$5,160) in filing fees for the Big Creek Property.

During the period ended June 30, 2025, the Company received a \$Nil (December 31, 2024 - \$44,264) grant from the Government of Yukon for the Big Creek Property.

**Other, Canada**

Tad/Toro Property, Yukon

The Company holds a 100% interest in the Tad/Toro Property subject to a 3% NSR, of which the first 1% may be purchased for \$500,000 and a second 1% for \$1,000,000. The Company wrote-down the value of the Tad/Toro Property to \$1 in previous years. During the period ended June 30, 2025, the Company paid \$Nil (December 31, 2024 - \$7,600) in filing fees for the Tad/Toro Property.

**Andalusite Peak, British Columbia, Canada**

**9. CAPITAL MANAGEMENT**

The Company includes cash and equity, comprising issued common shares, reserve and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

There were no changes in the Company's approach to capital management during the period ended June 30, 2025. The Company is not subject to externally imposed capital requirements.

**10. FINANCIAL INSTRUMENTS**

The Company is exposed in varying degrees to financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The types of risk exposure and the way in which such exposures are managed are as follows:

*Credit Risk* - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality financial institutions. Other receivables are comprised primarily of tax receivables generated on the purchase of supplies and services for the Company's exploration programs, which are refundable from the Canadian government. The Company's maximum exposure to credit risk is the carrying amount of financial assets on the consolidated statements of financial position.

*Liquidity Risk* – The Company's cash is invested in business accounts with high-credit quality financial institutions which are available on demand for the Company's programs. Future operations or exploration programs will require additional financing primarily through equity markets.

The Company has a planning and budgeting process in place to help determine the funds required to support normal operating requirements on an ongoing basis. Historically, the Company's primary source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

**10. FINANCIAL INSTRUMENTS (continued)**

*Liquidity Risk (continued)*

The Company has current liabilities in excess of current assets of \$186,781 (December 31, 2024 – \$725,761) at June 30, 2025. Liquidity risk is assessed as high.

*Market Risk* – Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices.

*Interest rate risk* – In respect to the Company's financial assets, the interest rate risk mainly arises from the interest rate impact on cash. Every 1% fluctuation in interest rates up or down would have an insignificant impact on profit or loss.

*Foreign currency risk* - The Company is exposed to foreign currency risk to the extent that certain monetary financial instruments and other assets are denominated in United States dollars. The Company has not entered into any foreign currency contracts to mitigate this risk and has no financial instruments held in United States funds. Therefore, foreign currency risk is minimized.

*Commodity price risk* – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand. The Company is not exposed to significant price risk.

*Fair Value* - The Company has various financial instruments comprised of cash, trade and other receivables, investment in equities and trade and other payables.

For disclosure purposes, all financial instruments measured at fair value are categorized into one of three hierarchy levels, described below. Each level is based on the transparency of the inputs used to measure the fair values of assets and liabilities:

**Level 1** – Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

**Level 2** – Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

**Level 3** – Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.
